#### Main changes from 2006 calendar

- 1 New winter 10/24GHz events in Jan/Feb
- 2 New autumn 1.3 to 5.7GHz evening cumulative events in Nov/Dec
- 3 New 3.4GHz-only event in May
- 4 24/47G timings changed - earlier finish, since nobody operates beyond about 6pm.
- 5 Instead of sections, certificates awarded to leading stations in various categories
- 6 Low-band events grouped in spring/early summer, and 24/47G events grouped in summer/autumn
